TECHNICAL SKILLS

- Languages: Python, SQL, JavaScript, HTML, CSS
- Frameworks & Libraries: Flask, Django, LangChain, React, Bootstrap, Pandas
- Databases & Vector Stores: PostgreSQL, MySQL, SQLite, FAISS, Redis
- Tools & Technologies: Git, Docker, AWS, RESTful APIs, PyMuPDF, Virtualenv

WORK EXPERIENCE

Software Engineer Intern - TechSolutions Inc.

Jan 2025 - Present

- Developed and optimized RESTful API endpoints using Python Flask, improving request speeds by 20%.
- Implemented database schema changes and wrote complex SQL queries in PostgreSQL for data analysis.
- Collaborated with frontend developers to build interactive analytics dashboards using React and Bootstrap.
- Wrote unit tests and automated integration testing, which increased test coverage from 65% to 85%.

PERSONAL PROJECTS

Interview Trainer Agent (Flask & LangChain & FAISS)

May 2026

- Built a Retrieval-Augmented Generation (RAG) tool using FAISS to query technical databases for interview preparation.
- Utilized IBM watsonx.ai Granite models to generate candidate readiness scores and customized HR/behavioral questions.
- Implemented resume parsing using PyMuPDF to extract candidate skill arrays and project highlights.

EDUCATION

Bachelor of Technology in Computer Science & Engineering

Graduated: May 2025

State University of Technology | GPA: 3.8 / 4.0 | Major Coursework: DBMS, OS, Data Structures, Algorithms

CERTIFICATIONS

- AWS Certified Solutions Architect - Associate (Feb 2026)
- Certified Kubernetes Administrator (CKA) - Linux Foundation (Apr 2026)

ACHIEVEMENTS

- First Place - University Hackathon (Out of 120 teams) (Oct 2024)
- Top 5% performer in National Coding Assessment test (2025)
